ABOUT THE GLOBAL ENDOSCOPIC SPINE SUMMIT

The Global Endoscopic Spine Summit, hosted as a cornerstone of the Operative Spine Forum, is a premier educational initiative designed to bridge the gap between theoretical knowledge and independent surgical practice. Set against the backdrop of Mumbai's leading medical institutions—Lilavati Hospital and BYL Nair Hospital—this intensive four-day program offers a rare convergence of high-volume clinical exposure and hands-on technical training.

By the end of the conference, we aim to make you confident enough to start your first endoscopic procedure beginner or advanced.
